**DETAILED ACTION**

***Election/Restrictions***

1. This communication is responsive to Applicant's Amendment, filed on 10 May 2006.

2. Claims 1-27 were pending in this application. Claims 1, 7, 14, and 21 are independent claims. In the Amendment filed on 10 May 2006, claims 2-4, 8-10, 15-17, 20, 22-24, and 27 have been cancelled. Claims 1,5-7, 11, 12, 14, 18, 19, 21, 25, and 26 were amended. *Claims 1, 5-7, 11-12, 14, 18-19, 21, and 25-26 remain pending.*

3. Restriction to one of the following inventions is required under U.S.C. 121:

- I. Claims 1, 5, and 6 are drawn to rendering a generic markup language to a device-specific language, classified in class 715,subclass 523.
- II. Claims 7, 11, 12, 14, 18, 19, 21, 25, and 26, drawn to changing file path using markup language to process content, classified in class 715, subclass 513.

The inventions are distinct, each from the other because of the following reasons:

Inventions as listed in Group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each

other if they are shown to separately usable. In the instant case, invention of these two groups has separate utility such as follow:

Group I teaches rendering a generic markup language to a device-specific language and Group II teaches changing file path using markup language to process content.

Because these inventions are distinct for the reasons given above and have required a separate status in the art as shown by the different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFE 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventor ship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
